

THE DEVEREUX CENTER

The Devereux Center is an open-door day center that helps preserve basic human rights by meeting basic needs. Of the many people we serve, our focus is those with mental health issues, though we have no eligibility requirements. We connect anyone who asks with resources that assist in improving quality of life.

Community Advocacy and Partnerships

The Devereux Center is committed to reaching outside of our organization and making changes on a broader level.

- Co-Facilitate the Steering Committee to Move Forward the 10 Year Coos County Plan to End Homelessness
- Make space available for any community partners who would like to provide outreach at our location
- Provide opportunities for our clients' voices to be heard by Federal policy makers
- Working on removing silos while building interagency bridges to connect with partner service providers and streamline services

Please Contact Tara Johnson (Director) to discuss how your organization and NDC can work together to better serve our community!
